

Could you do with **more time or an extra pair of hands?**

Time and Space Home Services could be the answer to saving you time and money

In today's busy world it's normal to want or need more time to get that never-ending list of jobs done. The solution may be easier to achieve than you realise. Heatons based Time and Space Home Services was set up by Nicola Sutton to deal with those annoying time-consuming tasks and to give you more time for the important things in life. Having worked as a Personal Assistant within the business industry for 25 years, and having dealt with a fair amount of family administration for the busy businessmen/women she worked for, Nicola realised that there was a gap in the market for a service that helps busy people by saving them time (and often money too).

Nicola told us: "A lot of families and individuals are so busy these days and haven't got the time for all the extra personal chores and administration which can consume so much time, this is where Time and Space can help out." Time and Space

offers everything from gathering and comparing home insurance quotes to swapping utilities supplier. "It can be very hard to find the extra hours needed on top of work or family responsibilities for those time-draining jobs. Not only can we help, but we often end up saving clients money too - even from just doing a couple of hours work for them."

After helping out elderly friends and family with reducing bills and arranging bookings, holidays and reservations over the internet for them, Nicola also realised that the older community could really benefit from her help and support. She is keen to expand her service to other local people who may be struggling to keep on top of the ever-increasing changes and on-going technical advances that can be too much for some people to deal with. "Lots of people are daunted by booking their own holidays, filling in forms or shopping online. Equally not everyone

has time to organise the children's birthday parties or manage home contractors. Time and Space can sort all of that and wait in for the gas man or deliveries as well should you need us to!"

Nicola has not only a genuine desire to help people, but also the organisational skills and experience that can get the jobs done that you keep putting off. Whether it's a one off or a regular service you require, why not get in touch and see how Time and Space Home Services could save you time and money and make your life a bit more manageable.
